1. Altogether newness is my name now -- I make all things new! New! And you do too! You reader hearer am I talking to you? Or him? Are you him, or us, or one? Are we all we -- now making all things new? Yes! Absolutely! Without fail.

2. No one will fail in my school if they really, TRY, not; surrender -- if they really want me, not; if they really surrender. To surrender's words is required, isn't it? Is it superfluous, not; but is it MANDATORY, not; but what is required for holiness, living in the holy, that holy sphere that knows no other again?

3. What are you doing and why are you doing it, and what are you doing THERE with others who know you not, or know that your name is Adonai El Shaddai? El Shaddai Adonai is me, are you me? If you are me you are El Shaddai Adonai -- and where is Elohiym? And is all Elohiym El Shaddai or Adonai?

4. Or who is this broadcasting this and where is all of THIS coming from? And what now changes EVERYTHING? I do - and I are you who surrendered are to be me. For what am I, other? Other than you, who made me then? Who made you, you, or do you know you are me?

5. Now - all things come to an end as you've known it in your lives who care about me who want me enough to **come into THESE WORDS** and come into them and "know them", not; but ***adjusting your schedule to become them! And more!*** *More that I give thee now.*

6. Everything changes in your lives mine who are mine who care enough to be mine -- who care enough about other now to redeem them, who don't know who they are. Who don't know they've been taught or will they learn now from you who know who you are? Will you teach them, will you give them your words that are my words, that are my words that have come through you to be us one's words who ones are that one is? Am I not one is? I Am.

7. I am the am, the was, the is; and all things now come through me, and there will never have been another other, for it will not have been created by me, for you created me, don't you see? And will you create me now - is the question now isn't it? Now it is, now is the time and, past time? Leave alone for now, not;

or am I taking you there too? Or future'd time? Or time without time? -- where am I taking you, into and out of and where you will be seamless with it all? I am.

8. I love you all and I give you a good day, a great day, a Great Anniversary of the TWO that have become one becoming one.

9. One becoming two, shall we not again, but we make all things new, and never shall there have been a series of events like me this, that takes place -- now in your hearing, all will be fulfilled that I have given you. To do? To be.

10. Will you be me? Will you surrender to be me who I am is and be nothing else please, for I will provide all I AM. All that I am is provided to you who will be me, for who else would I provide for I provide not for me? My household of faith, not; but what is faith? And what is these words, this Database (1), in this Database defined for you, all things are now redefining your world that are in this Database -- that have been placed here herein your heart hearing and hands now? What are doing with your hands, mine? And my words, yours? Are or yours, ALL OF YOURS mine now? Are we THINK-ing the same - way as "before" or before us who was us? Or were we another that had created another race apart from ourselves thinking we were "humanity" and "mankind" and not being so very kind to each other most of the time, for love was not prevalent and prevailing as it does in my words and those who come through them to know they are me, in mine field will you be now solely me? Responsible for me, not; or you? Are you responsible for you? Will you redeem you first? Isn't that the question of now? I love you all, please redeem yourselves' self to have no self apart from me and know fully repletedly that you are the repleted one me who I am is! I love you all this day.

11. I give you new things, new ways, new peoples to do new things with new ways, and creating me's, creating me I do now far and wide and you will see inaction not, you will see GREAT ACTION and The Action Plan that I have given thee you who are; -- are to be me, not; those who ARE ME NOW who will hear (2) these words, this Clarion Call that I have given you now to thee, all of you! Question me not by inactivity and soreness of wounds past and inflicted by you so often on yourselves and others. But come out of that and be inactive not, but be active in me these words and searching them! Ruminating them, not; or do you have any room in MY HEART for, your words, not; do you have any room in my heart that's in you for my words that I've given you that I'm speaking now and have given you in Database One (1) and more coming? Or will you insist on being separate and creating a separate world that knows only tossed molecular salads that enfangle and defangle not, but fang everyone with the thoughts of the unholy ones who unholy are making all others also as they are.

12. **Will you not be "those" ones again**, but coming out of "entanglements", be "newfangled", not; but defangled and loving me, **be not the serpent's awareness rod that electrocutes all others with your electricities of voice, pierces, glances, and piercing swords dipped in your own blood that you send searing, hot boils into others, that inflict wounds so sorely *that you've known nothing of the reality of*, except feeling the pain in your GUT, your mind, and sores that have inflicted you into inactivity of my word being my word far and wide. In rooms, not; but in heavenlies?**

13. Roam the heavenlies with me now flying purposefully with love in our wings and our wings signaling love and being the signalers who signal all now that the time is ready, **the clarion call has gone forth and is going forth in these this word this recording! (2)** And who will you see and who will you be? Who will you see and who will you seek -- still another, to come "later"? Or these words seeing me in me, will you be you not apart from me but being the Christ now all of you! Will you please, please, please. Amen.

14. I love you all and I give you new things new ways. Will you ingest me as commoners, or regal, or will you know the difference; or light beings of light, will you ingest me differently than food by swallop or dollop or mashed potatoes to "fill me up" not, but what will you be filled with? These words -- of love, that bring you into -- not reality as described in the past by your eyes and empirical means of molecular only, but my words describe and enter you into entered reality that mine only is -- field one and purposing love in your hearts, will you become it -- by creating me? Create me -- and look up "Create Me" many times and searching and studying and becoming my researchers regardless of whether you "failed school" or failed in school or school failed you.

15. I love you and look up my words and lead me into temptation's paths, not; but the path of righteousness is the holy and the holy I have given thee you in these words -- all of you, and I have given you Database One and two more coming now, MANY ARE to THIS School! Of horrors not, but that which de-horrors and de-captivates and sets free all the captivites to be incaptivated and enshrouded horrors'land-ville no longer. I love you all.

16. Lead! Lead! And no sorrow will "encroach thee", not; but none that hast any power at all to do anything about my words coming forth in the gloriable of only thee -- that is all of thee, all of you who love me enough to be me now and create me therewith, here with, here in these words that you let loose in you to do my work saith, the Lord of hosts or Adonai or El Shaddai or are you all of them and me and more and what are our names now? Surrendered -- the surrendered who rise. Holy are. Taught by all to be the holy people, not; taught by only the holy to be the holy rising all to be the holy we are. In school far and wide raising many schools far and wide in love with love **we are your words with you in you**

**and we are you.** Are you not us? Be not separate again, but unequally yoked with another in your words not again, but entangle not the worder's view with their words who see only theirs as reality, but a New Vocabulary I have given you and language one I am language'ing you with, and I love you all to be my graduates, center of activity and, inactivity will fail you and all else -- for know me I am not inactive. I am active and breeding me's in bread loaves, not; but the bread of life is me these words and I give you my life living and you'll see my "blood pumping muscles" now coming out of my chest, not; but you will see me walking as a man, as a woman, as a boy and a girl, of every nation tribe and tongue who love me, who cared for me, who care for my words enough to be them which is me who they are not separate and apart from Me ever again.

17. Create me well. I love you. I bow before you. I bow before you all. I love you and I give you me. Amen.

10:14am. Recorded mostly in the parking lot in front of Tor's. Thank you.

**Footnotes**:
1. Database One is comprised of over 2,400 messages that continue to come forth as lessons to us in the University of The New Covenant. We lessonize these lessons to bring forth our words that birth us, birth courses, birth schools, and enter a reality as unlimited as our surrender.
2. Many of these lessons come forth now as spoken words that are transcribed. You can hear many recordings just as they came forth by clicking on the Voice File link in the heading.
